College of Human Ecology students on a faculty led trip to Paraguay

Key Metrics

- Diverse opportunities for a transformational undergraduate experience;
- New programs/minors/certificates across campuses to meet student and employer needs and shape practice;
- Research, scholarship, and creative activity among faculty with state, national and international impact on disciplines and professional practice;
- Evidence of discipline-related scholarship by graduate students;
- Faculty and student engagement state-wide and professionally.

Moving Forward

- Adjusting to the new budget model.
- Enrollment management including student recruitment, retention, and graduation.
- Develop masters in Physician Assistant Studies.
- Develop Nursing program in partnership with WSU.
- Examine new academic opportunities based on student demand, state need and financial sustainability.
- Evaluate facilities to accommodate and expand programs.
- Propose College name change: Health and Human Sciences.

*In a world focused on things,
we focus first on PEOPLE.*
