# Facilities

- Added UV-C lighting addition to the air handling system to enhance safety on campus
- Completed classroom technology infrastructure upgrades - all six classrooms support either virtual or in-person classes.
- Renovated Sensory/Consumer Research space to accommodate graduate research assistants

# Key Metrics

- Enrollment/SCH in existing programs
- Revenue generated through Professional Development programs
- Grant revenue/Fee-for-service revenue
- Facility impact through community/industry events
- K-12 impact through school visits/collaborative projects

# Key Priorities

- Hire/on-board a new Dean/CEO for the campus
- Increase enrollment in existing academic programs
- Increase continuity between K-12, community college, and K-State offerings
- Develop additional tracks for the Professional Science Masters Degree in Applied Biosciences (data analytics, big data sets)
- Explore academic programs with Agriculture, Public Health, Business Administration, and Center on Aging programs
