

## Message for Webpage: May 28, 2008 Meeting

The Alternative Service Committee met May 28, 2008 to discuss the direction of ASC since the legislature passed the new pay plans. The committee voted to suspend the committee's work at this time and monitor the implementation of the new pay plans including funding. At such time that the committee feels the new pay plans are not being implementing properly or there has been a lack of funding for the new pay plans by the legislature, the committee will reconvene to discuss the next steps concerning alternative service. The chair will keep the committee informed of any pertinent information over the next 5 years of implementation. If there is a successful implementation of the new pay plans including funding at the end of the 5 years, then at that time the committee will determine if it should be dissolved.
