

Attachment 1

Faculty Senate meeting, 6-11-19 Consent Agenda - Course Proposals

Committee Faculty Senate

Notes

These course proposals were approved at the college level and Graduate Council (where needed) and were approved by the Faculty Senate Academic Affairs committee.

The FS Executive Committee approved placement of these proposals on the FS agenda. Once approved they will be moved on to the final implementation stage. These are course proposals and therefore do not need KBOR approval.

To view a course proposal, with markup, you must choose "view proposal" (not just the summary) and then in the right hand column under "User Tracking" you must select "show current with markup" from the drop down options.

Total Proposals 33

AAI - 841 - Strategies in Preclinical and Clinical Research for Regulatory Affairs in Animal Health

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Ellen Lowery

Department*

Subject*

Catalog Number* 841

Long Course Title* Strategies in Preclinical and Clinical Research for Regulatory Affairs in Animal Health

Short Title* Pre/Clinical Research

Credit Hours/ Units* 2

Course Description* In this course, students will review the history of regulations as well as gain an understanding of the integration of science into successful product approval outcomes. Students will learn how to achieve target claims for developing new products while ensuring safety. Students will also be introduced to the planning, design, and conduct of preclinical and clinical studies. The topics covered include protocol design and the evaluation and assessment of regulatory submissions. The course will consider practical issues in regulatory affairs. Students may participate in case study exercises.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (NEW)

Rationale* This course is designed to partially fulfill the requirements of a 15 credit hour regulatory affairs in animal health graduate certificate. The course is being submitted in advance of the full graduate certificate

proposal, which will be submitted for review and approval in Fall 2019. This course is not limited to the regulatory affairs certificate and may also be applied to other degree programs.

This specific course is intended to provide students with an introduction to the planning, design, and conduct of preclinical and clinical studies, which are the foundation of regulatory product development.

Impact Statement (i.e. if this impacts another unit)*

The Kansas State University catalog of course descriptions within each unit was reviewed to determine overlap of course content. Teaching faculty within the College of Veterinary Medicine who are experts in this area were also consulted. Based on this investigation, we anticipate that this new course will not impact units outside the School of Applied and Interdisciplinary Studies.

Projected Term*

2202 Spring 2020

Need help? See deadlines <http://www.k-state.edu/curriculog/deadlines/index.html>

AAI - 842 - Strategies in the Stewardship of Licensed Pharmaceuticals and Biologics in Animal Health

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Paige Adams

Department* School of Applied and Interdisciplinary Studies (Olathe Campus)

Subject* AAI

Catalog Number* 842

Long Course Title* Strategies in the Stewardship of Licensed Pharmaceuticals and Biologics in Animal Health

Short Title* Stewardship Pharma/Bio

Credit Hours/ Units* 2

Course Description* In this course, students will learn about the role of regulatory affairs in stewardship of animal health products. The topics covered include expected activities primarily post product approval, compliance, strategies for supply management, product life cycle management, risk management, and the role of industry in policy development. Communication with various stakeholders, including regulatory agencies, research and development, manufacturing, and marketing and sales are covered. The course will consider practical issues in regulatory affairs. Students may participate in case study exercises.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (NEW)

Rationale* This course is designed to partially fulfill the requirements of a 15 credit hour regulatory affairs in animal health graduate certificate. The course is being submitted in advance of the full graduate certificate proposal, which will be submitted for review and approval in Fall 2019. This course is not limited to the regulatory affairs certificate and may also be applied to other degree programs.

The course will emphasize the role of regulatory affairs in stewardship of animal health products. This course will give students an opportunity to synthesize knowledge they have gained in this and other courses regarding regulations, quality assurance processes, clinical research, and related business practices.

Impact Statement (i.e. if this impacts another unit)* The Kansas State University catalog of course descriptions within each unit was reviewed to determine overlap of course content. Teaching faculty within the College of Veterinary Medicine who are experts in this area were also consulted. Based on this investigation, we anticipate that this new course will not impact units outside the School of Applied and Interdisciplinary Studies.

K-State 8 Tag 1

Aesthetic Interpretation

K-State 8 Tag 2

Rationale for K-State 8 tag

The arts provide us with something more than knowledge of traditions, beliefs, and forms of expression; they also teach us to observe carefully, to reflect, to appreciate, to wonder, and to see objects and interactions with new eyes. The study of artistic works can heighten curiosity, intensify aesthetic and observational capacities, and sharpen the ability to make sense of a range of works from sacred texts to contemporary popular music, from ancient architecture to television and film. An understanding of artistic and cultural traditions is an important component of preparing for a lifetime of civic and cultural engagement.

Department*

Art

Subject*

ART

Catalog Number* 665

Long Course Title* Contemporary Clay & Ceramic Sculpture

Short Title (provide if title changed above) Clay & Ceramic Sculptur

Credit Hours/ Units* 3

Course Description*

Cultivates understanding of installation and site-specific art as well as abstracted and realist sculpture.

Hand-building and mixed media strategies are utilized to explore a dialogue between maker, gesture, and environment. Develops concept-based work for the gallery space and non-traditional settings. Emphasis on process, production, and exploration. The role of ceramics in sculpture, installation and the expanded field are introduced through readings and critical discussions.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (CHANGE)

Rationale* Course content is being updated to reflect new developments in the fields of ceramics art and design. Course stream is being adjusted to a topics based model to reflect a more interdisciplinary trajectory in the field of art and design. This course focuses on the topic of contemporary mixed media ceramic sculpture and clay installations.

(Prerequisite,
Corequisite,
Recommended
Prerequisite)** Prerequisite: ART 565.

Cross-listed

K-State 8 Tag 1

Aesthetic Interpretation

K-State 8 Tag 2

Rationale for K-State 8 tag

The arts provide us with something more than knowledge of traditions, beliefs, and forms of expression; they also teach us to observe carefully, to reflect, to appreciate, to wonder, and to see objects and interactions with new eyes. The study of artistic works can heighten curiosity, intensify aesthetic and observational capacities, and sharpen the ability to make sense of a range of works from sacred texts to contemporary popular music, from ancient architecture to television and film. An understanding of artistic and cultural traditions is an important component of preparing for a lifetime of civic and cultural engagement.

Typically Offered Fall, Spring

CIS - 731 - Programming Techniques for Data Science and Analytics

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Mitch Neilsen

Department*

Subject*

Catalog Number* 731

Long Course Title* Programming Techniques for Data Science and Analytics

Short Title* Prog Data Sci Analytics

Credit Hours/ Units* 3

Course Description* Intermediate programming techniques for data science. Survey of programming concepts that underlie MapReduce, Apache Hadoop, and Spark, along with related tools. NoSQL, search tools, graph databases, and visualization presented in the context of real-world problems involving data integration and transformation.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (NEW)

Rationale* This is an intermediate course on programming techniques for data science, including large (terascale) data sets and complex, heterogeneous data from various domains. It is intended for students who have had at least one introductory programming course.

Impact Statement (i.e. if this impacts another unit)* Prof. Christopher Vahl, Department Head of Statistics, was notified on January 9, 2019. He replied in support of the proposal on February 19, 2019.

Projected Term*

Need help? See deadlines <http://www.k-state.edu/curriculum/deadlines/index.html>

EDSP - 711 - Characteristics of Exceptionalities

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Kenneth F. Hughey

Department* Special Education, Counseling, and Student Affairs

Subject* EDSP

Catalog Number* 711

Long Course Title* Characteristics of Exceptionalities

Short Title* Characterist of Except

Credit Hours/ Units* 3

Course Description* Provide an overview of exceptionality as it pertains to students. The processes of IEP development, and characteristics of both high and low incidence populations will be examined. Each area of exceptionality will be reviewed in terms of etiology, diagnosis, prevalence, remediation, and educational strategies.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (NEW)

Rationale* Currently most endorsement programs in special education have just one "characteristics" course. K-State currently has two characteristics courses (EDSP 723 and 728) and an introductory course in special education (EDSP 710). In an effort to streamline our program and compete with those programs, we have combined the three listed courses (EDSP 710, 723, & 728) into one comprehensive characteristics course.

Impact Statement (i.e. if this impacts another unit)* The addition of this course will coincide with the removal of three courses (EDSP 710, 723, & 728) from the current special education program. All assessments and relevant materials will be adapted to fit this course. At this time we do not intend to drop those courses from the program to allow those students grandfathered into the new program an option.

Projected Term* 2202 Spring 2020

Click "Import this Item"

Select Non-Expedited changes requested

- Course number changes outside same level (LD=0-299; UD=300-699; GR1=700-899; GR2=900-999)
- Significant course title or description updates that change primary content of course
- Adding or changing a K-State 8 tag
- Dividing a course into two or more courses
- Combining two or more courses into one course
- Change in delivery method/components (lec, seminar, etc)
- Prerequisite change that impacts another college
- Other change that impacts another college

Expedited or Non-Expedited?*

- Non-Expedited Process (if selected one of the changes above)
- Expedited Process (minimal change that does NOT include any of the above)

Department*

Food, Nutrition, Dietetics, and Health

Subject*

FNDH

Catalog Number* 450

Long Course Title* Nutritional Assessment

Short Title (provide if title changed above)

Credit Hours/ Units* 2

Course Description*

Methods of nutritional assessment in humans to evaluate dietary intake and body composition; use of

biologic markers of human nutritional status.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (CHANGE)

Rationale* This replaces the current prerequisites of FNDH 400 or KIN 355 and limitation to nutrition and health majors only to FNDH 132 and sophomore standing or FNDH 352 only. The lecture and lab requirement note is also removed.

The course hands-on components (skills, assignments and lab activities) have been integrated into two hours of lecture per week as separate lab sections outside of lecture were problematic in accommodating enrollment numbers. At a fall 2018 faculty meeting, the topic of a FNDH 450 prerequisite changes was proposed by advisors primarily to add flexibility in course sequence and dissolve the 400/450 "gateway" to higher level courses. Discussion involved instructor expressing that FNDH 400 content did not serve as foundational knowledge for FNDH 450 and it was the opinion of the current instructor that FNDH 400 was not required for a student to be successful in FNDH 450. Additionally, FNDH 450 is included in the curriculum for the nutrition minor, thus the need to eliminate the requirement that only FNDH majors can enroll.

IMPORTANT: Run impact report

Copy and paste the results in the field below

Impact Report*

Impact Report for FNDH 450

Source: In Progress 2019-2020 Undergraduate Catalog

Requisites	FNDH 515 - Counseling Strategies in Dietetic Practice
	FNDH 600 - Public Health Nutrition
	FNDH 631 - Clinical Nutrition I
	FNDH 650 - Practicum in Human Nutrition
Programs	African Studies Certificate
	African Studies Minor
	Athletic Training (B.S.)
	Departmental course electives
	Dietetics (B.S.)
	Dual Degree: B.S. in Human Nutrition and B.S. in Kinesiology
	Food Science and Industry (B.S.)
	Gerontology Secondary Major
	Global Food Systems Leadership Secondary Major
	Health Coach Certificate
	Human Nutrition (B.S.)-Nutrition and Health
	Human Nutrition (B.S.)-Nutritional Sciences

Nutrition Minor

Impact Statement (i.e. if this impacts another unit) *

Per the impact report for FNDH 450, programs outside of the department impacted by this course change include:

African Studies Certificate – informed this is no longer an active program after calling College of Arts and Sciences February 25, 2019.

African Studies Minor – informed this is no longer an active program after calling College of Arts and Sciences February 25, 2019.

Food Science and Industry (B.S.) – Department head emailed Dr. Minton on March 1, 2019 and again on March 6, 2019 with response received on March 7, 2019-do not see this change affecting Food Science Industry

Gerontology Secondary Major – *Department head emailed Dr. Doll on March 1, 2019.* Dr. Doll responded with a statement of support on March 1, 2019.

Global Food Systems Leadership Secondary Major – *Department head emailed Dr. Siefers on March 6, 2019 with no response received.*

Additionally, this change no longer requires KIN 335 to be taken prior to FNDH 450, however the curriculum that requires KIN 335 remains unchanged (still a requirement). The Food, Nutrition, Dietetics and Health department head emailed the Kinesiology department head about this change on March 1, 2019. The Kinesiology responded with a statement of support on March 4, 2019.

Projected Term*

2202 Spring 2020

Form Revised: 7-15-2018

GEOG - 722 - International Conservation

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Audrey Joslin; ajoslin@ksu.edu; 532-6727

Department*

Subject*

Catalog Number* 722

Long Course Title* International Conservation

Short Title* Intl Conservation

Credit Hours/ Units* 3

Course Description* Examines geographic perspectives of global biodiversity loss and conservation landscapes with an emphasis on the political, economic, and cultural dimensions of conservation around the world.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (NEW)

Rationale* This course has been successfully offered as a special topics with strong student interest. This proposal seeks to formalize the course within the Department of Geography. Both undergraduate and graduate students enrolled in the course, and many of the graduate students would prefer to receive credit for an 800-level class rather than for a 700-level class. By offering the class as GEOG 722/822, undergraduate students would enroll in GEOG 722 and graduate students would enroll in GEOG 822. Students enrolled in GEOG 822 would be expected to perform at a higher level in seminar meeting discussion and they would be assigned the longer and more challenging class readings to read and discuss with the seminar that would students who take the class as GEOG 722. Furthermore, the 822 students would be required to complete three critical short essay assignments that further interrogate a subset of the assigned readings during the semester, whereas the 722 students would be required to complete one.

Impact Statement (i.e. if this impacts another unit)* Biology and Horticulture and Natural Resources were contacted on February 14, 2019. Response from Brian Spooner (Biology) and Steve Keeley (Hort. and Natural Resources) included.

Projected Term*

Need help? See deadlines <http://www.k-state.edu/curriculum/deadlines/index.html>

Department* Management

Subject* MANGT

Catalog Number* 421

Long Course Title* Introduction to Operations and Supply Chain Management

Short Title (provide if title changed above) Int Oper/Sply Chn Mangt

Credit Hours/ Units* 3

Course Description* To gain knowledge of Operations and Supply Chain Management (OSCM) principles and techniques,

such as process management, project management, quality management, continuous improvement, forecasting, supply chain management, inventory management, planning and scheduling, and lean systems. The primary goals are to develop students' analytical skills in solving OSCM-related problems in a variety of business settings and to help students understand how OSCM contributes to a firm's competitive position in a global marketplace.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (CHANGE)

Rationale* We are dropping STAT 350 as a pre-requisite to allow students to take MANGT 421 in their sophomore year if they wish. Students will then have more time to take upper-level business courses starting in their junior year. Both STAT 350 and MANGT 421 remain required courses for all business majors, so there will be no net change in the number of students taking the course; the change affects timing/sequencing only. The current MANGT 421 curriculum incorporates fundamental statistics knowledge when needed to better understand the course material, so students will not be disadvantaged if they choose to take STAT 350 after MANGT 421. Also includes updated course description.

Political Science

Subject*

POLSC

Catalog Number* 510**Long Course Title*** Internship in Government, Public Administration, and Politics**Short Title (provide if title changed above)****Credit Hours/ Units*** 1-6**Course Description***

Supervised field work at the international, national, state, and local levels of government or with political

parties or other politically oriented voluntary organizations.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (CHANGE)

Rationale* This is our undergraduate internship course and it is currently listed at POLSC 784. The course is open to both majors and non-majors in political science. However, the course number does not reflect the targeted group of students for this course, which is juniors and seniors. As a result, there might be students interested in completing an internship with our department, that do not consider it because of the high course number. We would like to move the course number down to the 500 level. The university handbook, section F51, states that "upper division undergraduate courses, primarily for juniors and seniors, but also eligible for graduate credit" should be listed at the 500-699. We believe the 500 level is much more appropriate for this course than the existing 784 course number. We are also removing the prerequisite that students must take two political science courses before completing an internship. Students can now take an internship after completing one political science course (see the revised language below).
