

Faculty Senate meeting, 11-13-18 Consent Agenda Course Proposals

Committee Faculty Senate
<p>Notes These course proposals were approved at the college level and Graduate Council (where needed) and were approved by the Faculty Senate Academic Affairs committee during their October meetings.</p> <p>The FS Executive Committee approved placement of these proposals on the FS agenda. Once approved they will be moved on to the final implementation stage. These are course proposals and therefore do not need KBOR approval.</p> <p>To view a course proposal, with markup, you must choose "view proposal" (not just the summary) and then in the right hand column under "User Tracking" you must select "show current with markup" from the drop down options.</p>
Total Proposals 8

AP - 788 - Basic and Applied Pharmacokinetics

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Gail Eyestone, geyestone@vet.k-state.edu, 785-532-4503

Department* Anatomy and Physiology

Subject* AP

Catalog Number* 788

Long Course Title* Basic and Applied Pharmacokinetics

Short Title* Basic Pharmacokinetics

Credit Hours/ Units* 3

Course Description* This course is designed to provide students with fundamental concepts and principles of absorption, distribution, metabolism and elimination of drugs, environmental chemicals, and nanomaterials by the body. The course also covers actual applications of the pharmacokinetic knowledge using case studies of commonly dosed drugs, common environmental contaminants, and nanomaterials.

Rationale and Impact (NEW)

Rationale*

Pharmacokinetics is a foundational course in many graduate programs in the broad field of life sciences, including physiology, pharmacology, pathobiology, biochemistry, animal science, and veterinary biomedical sciences. This course will benefit students in multiple graduate programs at KSU.

The ability to apply pharmacokinetic principles to address veterinary-specific situations in the clinic and research is critical for veterinary students. This course will benefit DVM students at KSU. This course is one of the core courses of the Graduate Certificate Program in Computational Medicine that the ICCM faculty members are developing. This course will support the teaching mission of the ICCM and Department of Anatomy and Physiology, as well as help ICCM faculty to continue to develop the graduate certificate program.

In the past, a former faculty member Dr. Ronette Gehring in Department of Anatomy and Physiology taught a similar course entitled "Clinical Pharmacokinetics". However, Dr. Gehring left KSU in 2017 and her course was not offered in 2017. It is likely that her course will no longer be offered. As a result, it is important to create a similar course to fill this gap.

Impact Statement (i.e. if this impacts another unit)* No impact.

Projected Term* 2194 Summer 2019

Need help? See deadlines <http://www.k-state.edu/curriculum/deadlines/index.html>

Form Revised: 10-6-2017

GEOL - 104 - Dynamic Earth Laboratory

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Aida Farough; afarough@ksu.edu

Department*

Subject*

Catalog Number* 104

Long Course Title* Dynamic Earth Laboratory

Short Title* Dynamic Earth Lab

Credit Hours/ Units* 1

Course Description* Covers basic principles and tools of the geosciences and their applications.

Need help? See [Course Description Guidelines](#)

Rationale and Impact (NEW)

Rationale* College of education, along with a number of other colleges/degree programs across campus, have reduced, or are in the process of reducing, total student credit hours required for graduation to 120. as a result, difficult choices are being made to eliminate important course experiences because they no longer fit within the reduced "budget". A 3-credit-hour intro geology course for some education majors is one such casualty. In order to preserve at least some exposure to the geosciences for these (and other) students, we are proposing to offer a 1-credit-hour, intro-level geology laboratory experience based on GEOL 103 (Geology Laboratory). GEOL 103 is a one-credit-hour lab experience designed to partner with an intro-level geology lecture course, e.g. GEOL 100, GEOL 102, or GEOL 125; enrollment in one of these lecture sections is a pre- or co-requirement for enrollment in GEOL 103. The new course we are proposing here, GEOL 104, would have no pre-requisites. It would still introduce students to principles of geology and would cover similar topics to those presented in GEOL 103 (e.g. identification of rocks and minerals, use of geologic and topographic maps, principles of stream and groundwater flow, processes of landform development), but the information would be tailored to be consistent with the anticipated knowledge level for students who are not enrolled in a 3-credit-hour intro-level geology lecture course.

Impact Statement (i.e. if this impacts another unit)* The impact of this course is expected to be highly positive. It is designed to fill the gap in science/geoscience course opportunities created by the reduction in total student credit hours for a number of degree programs. We have communicated our plans to the chair of the College of Education Faculty Assembly & Executive Committee, and she is strongly supportive. This new course is viewed as a way of maintaining at least some exposure to the geosciences. This is particularly important, given the need for many secondary education majors to teach Earth and Space Sciences - a required content area in the K-12 progression in the Next Generation Sciences Standards (NGSS)

<http://www.nextgenscience.org/overview-dci>. The Head of Department of Geology is also fully supportive of this initiative.

Projected Term*

2194 Summer 2019

Form Revised: 7-15-2018

HDFS - 500 - Special Problems in Human Development & Family Services

2018-2019 Appendix A: Course Form - New

General Catalog Information (NEW)

Contact person for this proposal* Kiersten Wukitsch, kierst2@ksu.edu, 224-545-6011

Department* Family Studies and Human Services

Subject* HDFS

Catalog Number* 500

Long Course Title* Special Problems in Human Development & Family Services

Short Title* Special Problems

Credit Hours/Units* 0-6

Course Description* Independent or small group study on special topics in human development and family services.

Rationale and Impact (NEW)

Rationale* This course fills the need for an upper level undergrad independent study option or special topics course available for our grad students to teach as an intersession course. This would help establish that this is an advanced elective, without us requiring to get permission from the graduate school for a graduate student to teach the course. Currently, any advanced special topics are taught under FSHS 700. However, 700 level courses are considered grad classes, so graduate faculty have to teach those courses.

Impact Statement (i.e. if this impacts another unit)* No impact.

Projected Term* 2194 Summer 2019

Need help? See deadlines <http://www.k-state.edu/curriculog/deadlines/index.html>

Short Title
(provide if title
changed above)

Credit Hours/
Units* 3

Course

A study of the legal issues relating to media and strategic communications.

Description* Emphasis on defamation, privacy, copyright, administrative controls and other legal areas.

Rationale and Impact (CHANGE)

Rationale* MC 466 Law of Mass Communication has been listed as fulfilling a K-State 8 "Historical" requirement. However, the more accurate designation is "Ethical Reasoning and Responsibility" and this action seeks to make that minor adjustment. Also, the course carried the "Junior standing" prerequisite, and this action will eliminate that requirement.

Routing (CHANGE)

Does your department have a Department Curriculum Committee?*

Yes No

WARNING: Review Expedited/Non-expedited selections

Go to the top of the form and review the Expedited/Non-expedited decision before launching this form. Review impact report, impact statement and requisites to be sure. Incorrect decisions will delay your proposal. If you need assistance, contact your college curriculum representative.

Expedited/Non-Expedited Review* I have reviewed the Expedited/Non-expedited decision

IMPORTANT: Launch the proposal

Click the Launch icon above 
 The proposal moves to the Originator step
 Then make change to course information fields above
