

Attachment 1
Proposed Revisions to
University Handbook, Appendix E:
Faculty Senate Constitution
Tracked Version
Approved by FS Constitution Ad Hoc Committee on March 20, 2023

Rationale:

1. The Constitution Committee determined that one seat should be reserved within the General University Caucus for a senator from Olathe. The elections procedures have been updated to include this.
2. The Constitution Committee determined that deans, associate deans, and assistant deans should be represented in their own college's caucuses rather than in the General University caucus. Similarly, the Constitution Committee determined that the Director of Extension should be represented in the Extension caucus rather than in the General University caucus.
3. To comply with the Kansas Open Meetings Act, the by-law regarding secret ballots must be removed.

Article II. Faculty Senate Membership

Section A. Composition, Representation, Voting, and Membership

1. Composition

- a. The senate is composed of distinct caucuses representing various units on campus. There shall be four senators elected from the following units: (1) extension, (2) the library, and (3) each of the colleges. In addition to these four senators, an additional senator shall be elected from each unit for each twenty-five full-time equivalent (FTE) unclassified personnel above seventy-five FTE or fraction thereof. Where used in this constitution, the phrase "unclassified personnel" refers to faculty and unclassified professionals. Determination of the FTE for each unit is based on the total FTE of all unclassified personnel on regular (non-term) appointments who are funded through the budget of the unit, excluding Extension Agents and Farm Management Economists. The senators elected from each unit comprise that unit's caucus. In addition, there shall be a General University caucus comprised of members elected at-large representing all other unclassified personnel on regular (non-term) appointments. The number of senators elected for this caucus will be determined at a rate of 15% (rounded up to the nearest whole number) of the total number of senators in all other caucuses (excluding the General University caucus and Term Appointment). The General University Caucus will include one senator elected from those eligible from the Olathe campus.
- b. There shall also be a Term Appointment caucus representing unclassified personnel on term appointments, excluding Extension Agents and Farm Management Economists. The number of senators elected for that caucus is determined at a rate of 10% (rounded up to the nearest whole number) of the total number of senators in all other caucuses (excluding the General University caucus and Term Appointment caucus). The composition of the Term Appointment caucus may include members from all colleges, extension, the libraries, and the General University unit. However, there will not be more than two term employees from any college, extension, the libraries, or the General University unit. Internal procedures, as reviewed by the election

committee and on record with the Faculty Senate office, shall ensure the Term Appointment caucus composition is maintained.

- c. The Student Body President and the Speaker of the Student Senate will be voting members.
- d. The University Support Staff Senate President (or their designee) will be a voting member.
- e. The Graduate Student Council President (or their designee) will be a voting member.

2. Representation

All unclassified personnel at Kansas State University on a regular (non-term) appointment, except Extension Agents and Farm Management Economists, are represented in the Faculty Senate based on the location of their appointment in the University. When appointment tenths of time are distributed unequally among two or more units, the person is represented in the unit providing the greatest tenths of time. When appointment tenths of time are distributed equally among different units, the person is free to choose any one of those units for membership. Unclassified personnel with appointments not tied to an academic college, extension, or the libraries are represented by the General University caucus. ~~Regardless of the tenths of time allocated towards administrative functions, d~~Deans, associate deans, and assistant deans are represented ~~by the General University caucus (although they are counted in the determination of the number of senators within in~~ their home unit). The ~~D~~director, ~~associate director, and assistant director~~ for extension ~~functions primarily as an administrator and shall also be~~ represented by the ~~General University~~Extension caucus. ~~Assistant and associate directors in extension function as department heads and therefore are to be represented by the extension caucus, not the General University caucus.~~

All unclassified personnel at Kansas State University serving on a term appointment, regardless of their location of appointment, shall be represented in the Faculty Senate by members elected at-large, to comprise the Term Appointment caucus.

3. Eligibility for voting in Faculty Senate elections

Those unclassified personnel identified in Article II, Section A.2 are eligible to vote in the senate elections in the caucus in which they are represented.

4. Eligibility for membership in the Faculty Senate

Those unclassified personnel identified in Article II, Section A.2 with a total university appointment of 0.5 FTE or more, at the time information is queried for the yearly elections, are eligible to be elected to the Faculty Senate. A person who does not wish to be included on their unit's ballot that year must so notify the caucus chair in advance.

- 5. The proportional representation shall be reviewed and revised, if necessary, by the Faculty Senate executive committee every three years beginning in October 2020. October 1 shall be the date for counting the number of faculty and unclassified professionals with a total university appointment of 0.5 FTE or more in each unit for the purpose of reapportionment of the Faculty Senate.

Section B. Parliamentarian

The Faculty Senate shall include a parliamentarian without voting power.

Section C. Term of Office of Senators

1. The term of office shall be three years. Senators are eligible for re-election. However, the maximum that a senator can serve without a year intervening is two consecutive three-year terms. Election as an officer in the senate shall be the exception to this limit. The term of office with full voting privileges shall begin with the first meeting of the new senate.
2. In the event senators are on leave, incapacitated, or otherwise unable to function for a time greater than one semester, the office shall be declared vacant and shall be filled by the procedure of Article II, Section D.5. The person appointed to fill the vacancy will serve for the remainder of the term. Senators unable to function for one semester or less may designate a proxy as outlined in the by-laws.

Section D. Nomination and Election of Candidates

1. An election committee along with caucus chairs shall conduct an election each year and certify the results with the aid of such offices as are necessary. This election committee shall be composed of the chair or co-chairs of the faculty affairs committee, the chair or co-chairs of the professional staff affairs committee, the president, and the secretary of the senate. Approximately 11 weeks before the first meeting of the new senate, the caucus chair from each unit shall confirm with the Office of Faculty Senate a list of those in the unit eligible to vote and eligible to serve in senate elections. The election committee shall adjudicate any questions of voter eligibility, the unit in which a person should vote, and the eligibility for election to the senate, according to Article II, Section A.1.
2. All eligible voters shall have the opportunity to vote by secret ballot for representatives from their respective unit.
3. Nominees for membership in the senate shall be chosen approximately nine weeks before the first meeting of the new senate by a preliminary ballot of those entitled to vote. The caucus chair in charge of unit elections or a member of the election committee shall ascertain the willingness to serve of those nominated from each unit, in order of number of votes each received, and shall certify twice the number to be elected as the official nominees of the unit. In the event of ties, those receiving the same number of votes shall be included on the ballot for election; eligible voters shall be directed to vote for, at most, the necessary number of senators.
4. Senators shall be chosen by secret ballot in a final election supervised by the caucus chair and election committee. In the event of a tie in the final election, a coin will be tossed to determine the winner. Elections shall be conducted seven weeks before the first meeting of the new senate.
5. A complete summary of the election shall be kept on record for at least three years in the Office of Faculty Senate. Election results shall be forwarded to the president of the senate.

As a vacancy occurs in the senate, the caucus where the vacancy occurred will appoint to the senate for the unexpired term the individual who received the next highest number of votes in the most recent election within the unit. In the case of a vacancy in the Term Appointment caucus, this same procedure will be used, except that the required composition of the caucus

will be maintained when filling the vacant seat (see Article II, Section A.1.b.) In the case of a vacancy within the General University caucus for the senator from Olathe, the individual who received the next highest number of votes for that seat in their most recent election will be appointed for the unexpired term. Notification of the replacement will be provided at the next regularly scheduled executive committee and Faculty Senate meetings.

Each caucus shall go back no further than the final ballot to find replacements for vacancies. When the names on the final ballot are exhausted, a special election will be called at the time of the vacancy to fill the vacancy. In the event the names on the final ballot are exhausted and yearly elections are in process, the vacancy may be filled utilizing the current elections. This will be handled on a case-by-case basis in consultation with the caucus chair and election committee.

6. In the event of reorganization of the colleges, extension, the library, or the general administration, representation on the senate of these groups will remain unaltered until after the next regularly scheduled election.

Article III. Faculty Senate Organization

Section A. Officers

1. The officers shall be president, president-elect, and secretary. At the first meeting of the new senate, the president-elect shall assume the presidency, and a new president-elect and secretary shall be elected by the senate from its membership or the membership of the immediately preceding senate. If one person does not receive a majority of the votes, there will be a runoff election between the two nominees receiving the highest number of votes. With the assistance of the Faculty Senate Leadership Council, the president and past president are charged with identifying and encouraging individuals to become candidates for officer positions. During their terms, the president-elect, president, and past president shall serve as senators-at-large with voting rights and not as representatives of his/her unit.
2. The president shall be the presiding officer of the Faculty Senate, the executive committee, and the leadership council. The presiding officer shall only vote in case of a tie.
