

K-State Geology Seminar Schedule
Spring 2023
Thursdays from 4-5pm
Thompson Hall, Room 213
***** Hybrid (in-person and/or virtual) *****
Geology Department
Kansas State University

Date	Speaker	Talk Title	Host
26-Jan	Maria Cappello Red Tree Consulting	<i>My Beautiful Career in Geosciences</i>	Dr. Karin Goldberg
09-Feb	Dr. Karin Goldberg & Dr. Pamela Kempton Geology, K-State	<i>How to write a thesis</i>	Dr. Pamela Kempton
23-Feb	Dr. Michael Lambert Geology, K-State	<i>The origin and applications of organic petrography</i>	Dr. Pamela Kempton
02-Mar ◇	Dr. Brett DePaola Physics, K-State	<i>Physics for policy makers – and why we need a course like this!</i>	Dr. Karin Goldberg
23-Mar ‡	Dr. Andrew Luhmann Wheaton College	<i>Using Geophysics to capture 'Earth burps' and other processes during flow through karst conduits</i>	Dr. Behzad Ghanbarian
06-Apr ‡	Dr. Jessica Meyer Univ. of Iowa	<i>How vulnerable is your aquifer?</i>	Dr. Matthew Kirk
13-Apr ‡	Dr. Shaina Kelly Columbia University	<i>Submicron to subsurface characterization: Transport phenomena in porous media for sustainable energy application</i>	Dr. Behzad Ghanbarian
20-Apr	Dr. Sean Gallen Colorado State Univ.	<i>Slab-mantle interactions control forearc uplift during subduction retreat in central Mediterranean</i>	Dr. Brice Lacroix

◇ Hybrid (in-person and via Zoom)

‡ Virtual (via Zoom only)
