KANSAS STATE
UNIVERSITY

Celebrating *Our* Future

Dear Graduates,

On behalf of Kansas State University, we extend our sincerest congratulations and best wishes on your graduation.

Your degree represents work and commitment on your part and on the part of those who have helped you along your way. Whether it is your family, friends, faculty, staff or fellow students, know that all are proud of your accomplishments.

Commencement marks a milestone in your life and sets you on a journey toward a productive and fulfilling career. We hope you use the knowledge and preparation you received at K-State to move forward and make a difference throughout your life, whether in the career field, in the community or in other worthy pursuits.

As you embark and progress in your career and life, know that Kansas State University will always encourage you along the way. You are now part of our network of more than 200,000 proud alumni worldwide. We urge you to remain connected to the university through the K-State Alumni Association, which is providing you and fellow graduates with a year's free membership.

Please find opportunities to return to campus, whether to continue your education, share your experiences and expertise with future K-Staters, take in an athletic or cultural event, or just to catch up on your alma mater.

Congratulations and best wishes for the future,

R. B. Myers

Alma Mater by H.W. Jones, class of 1888

*I know a spot that I love full well,
'Tis not in forest nor yet in dell;
Ever it holds me in magic spell,
I think of thee, Alma Mater.*

*K-S-U, we'll carry the banner high.
K-S-U, long, long may thy colors fly.
Loyal to thee, thy children will swell the cry.
Hail, Hail, Hail, Alma Mater.*

About Kansas State University

Kansas State University is on its way to becoming one of the nation's Top 50 public research universities by 2025. The visionary K-State 2025 plan, launched in 2010, serves as a guide for our decision-making and priority-setting in all facets of the university, including academics, facility needs, research, engagement and athletics. For more information and to track our progress, go to k-state.edu/2025.

Founded in 1863 as the country's first operational land-grant university, Kansas State University has campuses in Manhattan, Olathe and Kansas State Polytechnic Campus in Salina, as well as K-State Global Campus, which serves distance education students. K-State Research and Extension also has a presence throughout Kansas.

The mission of Kansas State University is to foster excellent teaching, research and service that develop a highly skilled and educated citizenry necessary to advancing the well-being of Kansas, the nation and the international community. The university embraces diversity and inclusion, encourages engagement and is committed to the discovery of knowledge, the education of undergraduate and graduate students, and improvement in the quality of life and standard of living of those we serve.

Forbes magazine, the Princeton Review and U.S. News & World Report have recognized Kansas State University as one of the best in America.

Nearly 23,000 students from across the U.S. and more than 100 countries attend Kansas State University. Students can choose from more than 250 majors and options in nine colleges: Agriculture; Architecture, Planning & Design; Arts and Sciences; Business Administration; Education; Engineering; Human Ecology;

Technology and Aviation; and Veterinary Medicine. The Graduate School offers more than 110 academic programs.

K-State also enjoys strong support from its alumni and friends. With more than 200,000 alumni, the K-State Alumni Association is ranked among the top five alumni associations in the nation for the percentage of graduates who are members. The Kansas State University Foundation's Innovation and Inspiration Campaign has already earned more \$1.1 billion and is on its way to reaching \$1.4 billion by 2020.

Called "the Silicon Valley for biodefense" because of its leadership in food safety and security and agrodefense, Kansas State University is home to four Feed the Future labs, an initiative by the U.S. Agency for International Development to increase food production in nations with limited resources. The university also is home to the Biosecurity Research Institute, which supports comprehensive "farm-to-fork" infectious disease research programs that address threats to plant, animal and human health. Construction is underway adjacent to the Manhattan campus of the U.S. Department of Homeland Security's National Bio and Agro-defense Facility, which will be the nation's premier animal disease research facility.

Total research efforts at Kansas State University have led to more than 250 patents to date. The university has more than 90 research centers, including the 8,600-acre Konza Prairie Biological Station and the Johnson Cancer Research Center. Our distinguished faculty members are tackling such issues as climate change, cybersecurity, sustainable energy, urban revitalization and more — often involving undergraduate students in their work.

About our ceremonies

The university mace

The Kansas State University mace made its debut in September 2009 at the inauguration of Kirk H. Schulz as the university's 13th president. A mace is a decorative symbol of office and typically carried at the front of academic processions. The university's mace is carried in the processional at the Graduate School ceremony and is displayed at each college's ceremony. Designed by Tom Boley, a 1970 university graduate, the mace is made from a purple wood called purpleheart and a light-colored maple.

Academic dress

The history of academic dress dates to medieval European universities of the 12th century. Universities in the United States have standardized academic dress so its features are common and uniform throughout the country.

The gown — At Kansas State University, gowns are black and typically made of synthetic material or worsted wool. The pattern varies with the degree held — open sleeves for the bachelor's degree; long, closed sleeves with slits for the hands for the master's degree; and round, bell sleeves for the doctoral degree.

The hood — Students receiving graduate degrees wear hoods. The master's hood is shorter than the doctoral hood and lacks the panels of the doctoral hood. Hoods are lined with the colors of the university; the university's lining is purple with two inverted chevrons. The binding or edging of the hood is the color pertaining to the subject of the degree.

The caps — All bachelor's and master's degree candidates wear a black mortarboard. Doctoral students may wear a mortarboard or a soft velvet tam with either six or eight sides. The tams can be dark blue or black for Doctor of Philosophy candidates, and light blue for Doctor of Education candidates. Doctor of Veterinary Medicine candidates wear a black mortarboard. Tassel color for all degree candidates depends on the degree and/or degree field.

Graduation honors

Bachelor's degree candidates who are earning graduation honors from Kansas State University wear a purple-and-white honor cord on the left shoulder of their commencement gown. Honors are awarded based on their Kansas State University grade point average. Eligible students also must have completed a minimum of 60 hours in residence, with at least 50 hours in graded courses.

K-State graduation honors:

Summa cum laude — For students with a 3.95 or above GPA.

Magna cum laude — For students with a 3.85-3.949 GPA.

Cum laude — For students with a 3.75-3.849 GPA.

* Note: Doctor of Veterinary Medicine degree candidates receive these honors based on courses completed in the professional program. Honors indicated in this program are determined on a minimum of 45 hours in residence completed prior to the term of graduation, with at least 36 credit hours in graded courses.

Mary Jo Myers

Women's Initiative Policy Advisory Council formed by Laura Bush as part of the Bush Foundation. Myers also was appointed to the President's Council on Service and Civic Participation in February 2006 and served through 2009.

She is a founding member and president emeritus of the Aschiana Foundation, which supports literacy and vocational training for street children

Mary Jo Myers has a rich background in public service related to military, educational and humanitarian organizations and programs. A military spouse for more than 40 years, Myers has won multiple awards for her humanitarian work. She currently serves on the

board of MediSend, an organization that offers training in biomedical equipment repair, as well as donations of medical equipment and supplies to charitable hospitals around the world. She received its first Humanitarian Award in 2004. Other awards include The Spirit of the USO Award and National Defense University's American Spirit Award in 2005.

Myers is a partner in a business, Moscow on the Potomac, importing handcrafted items from Russia. She recently retired as associate director of public affairs at Hayes and Associates and was an educator in secondary and adult education throughout her husband's military career.

Her dedication to the military continues through her service on the board of trustees for Fisher House, which provides free lodging to military

family members while loved ones are receiving medical treatment. She was instrumental in establishing the Hero Miles program, operated by the Fisher House Foundation, that uses donated frequent flyer miles to purchase tickets for families of hospitalized military members.

Along with serving as K-State's first lady, Myers is a member of the Kansas State University Foundation's board of trustees and is a co-chair of the foundation's Inspiration and Innovation Campaign. She also has served on the board of the K-State Alumni Association.

Kansas Board of Regents

Dennis A. Mullin

Dennis A. Mullin, Manhattan, was appointed to the Kansas Board of Regents by Gov. Sam Brownback in 2015 and currently serves as the board's vice chair.

As the chairman of Steel and Pipe Supply, Mullin leads one of the largest steel service centers in the nation. Mullin earned his bachelor's

degree in 1970 from Pittsburg State University, graduating as the Outstanding Senior Man. He was named an outstanding young alumnus of his alma mater in 1984.

Mullin is a member of the Business Advisory Council for the College of Business Administration at Kansas State University, trustee emeritus for the KSU Foundation and a board member of KS State Bank of Manhattan. He was selected as entrepreneur of year by Ernst Young and INC magazine for the state of Kansas and western Missouri in 1995. Mullin is a past president/

Kansas Technical Institute in Salina, now known as Kansas State University Polytechnic Campus. He also taught mathematics, physics and chemistry at Shawnee Mission South High School in Overland Park and Wabaunsee County High School in Alma.

Throughout his career, Peterson has played an active role in helping establish the national research and education agendas, serving on numerous industry, government and academic task forces and committees. He is currently serving as a member of the executive committee of the Association of American Universities board of directors and is a member of the Knight Commission on Intercollegiate Athletics and the chair of the NCAA board of governors.

A distinguished scientist, in 2008 he was appointed by President George W. Bush to the National Science Board, which oversees the National Science Foundation and advises the president and Congress on matters related to science and engineering research and education. In 2014 he was reappointed to the board by President Barack Obama, who also appointed Peterson to the Advanced Manufacturing Partnership 2.0 Steering Committee. In addition, he was appointed to serve on the U.S. Council on Competitiveness and the National Advisory Council on Innovation and Entrepreneurship.

chairman of the Manhattan Area Chamber of Commerce, Manhattan Rotary Club and Greater Manhattan Community Foundation. He is a founding member and president of the Boys and Girls Club, Flinthills Breadbasket and Flint Hills Christian School, all of Manhattan.

He and his wife, Rhonda, have two children and four grandchildren. In Mullin's free time, he enjoys watching his grandchildren play sports and everything K-State.

Peterson's research interests have focused on the fundamental aspects of phase-change heat transfer, including the heat transfer in reduced-gravity environments, boiling from enhanced surfaces, and some of the earliest work on flow and phase-change heat transfer in microchannels. Early investigations focused on applications involving the thermal control of manned and unmanned spacecraft and progressed through applications of phase-change heat transfer in the thermal control of electronic components and devices. More recently, investigations have included fundamental applications of phase-change heat transfer to the field of biotechnology, including the in-situ treatment of cancerous tissue using hypothermia and hyperthermia to arrest epileptic seizures through the rapid cooling of localized brain tissue, which required highly efficient heat-dissipation devices capable of dissipating thermal energy to the surrounding tissue.

Peterson earned bachelor's degrees in mechanical engineering and mathematics and a master's degree in engineering, all from Kansas State University. He earned a doctorate in mechanical engineering from Texas A&M University. He and his wife, Val, also a K-State alumna, have four adult children.

Speaker

G.P. "Bud" Peterson

G.P. "Bud" Peterson was appointed as the 11th president of the Georgia Institute of Technology on April 1, 2009. Peterson came to Georgia Tech from the University of Colorado, Boulder where he served as chancellor for three years. He also has been provost at Rensselaer Polytechnic Institute in New York and on the faculty at Texas A&M University.

In his 19 years at Texas A&M, he served in several positions, including head of the mechanical engineering department, executive associate dean of engineering and associate vice chancellor for engineering for the Texas A&M University System. Before joining Texas A&M, Peterson was a visiting research scientist at NASA's Johnson Space Center in Houston and associate professor and head of the general engineering technology department at

Major Professor: <i>Andrew Bennett</i>
Dissertation: <i>Proof validation in Euclidean geometry: A comparison of novices and experts using eye tracking</i>

Mechanical Engineering

Doctor of Philosophy

Haotian Gao

Major Professor: *Mingjun Wei*

Dissertation: *POD–Galerkin Based ROM for Fluid Flow with Moving Boundaries and the Model Adaptation in Parametric Space*

Louis Blais Wonnell
Major Professor: <i>Mingchang Chen</i>
Dissertation: <i>A kinetic analysis of morphing continuum theory for fluid flows</i>

Microbiology

Doctor of Philosophy

Trisha Ann Rettig

Major Professor: *Stephen Chapes*

Dissertation: *Determination of B cell IgH Repertoire Changes after Immunization and Space–flight Modeling*

Pathobiology

Doctor of Philosophy

Rui Guo

Major Professor: *Ying Fang*

Dissertation: *Novel Pathogenic Mechanisms of Porcine Reproductive and Respiratory Syndrome Virus: Intercellular Transmission and Viral Persistence*

Izabela Katarzyna Ragan
Co-Major Professors: <i>William Wilson and A. Sally Davis</i>
Dissertation: <i>The Development of Novel Diagnostic Countermeasures for Rift Valley Fever Virus</i>

Benjamin R. Tribble
Major Professor: <i>Bob Rowland</i>
Dissertation: <i>Antibody Epitopes Linked with Protection versus Disease for Porcine Reproductive and Respiratory Syndrome Virus and Porcine Circovirus Type 2</i>

Personal Financial Planning

Doctor of Philosophy

Anthony Canale
Co-Major Professors: <i>Maurice MacDonald and Clifford Robb</i>
Dissertation: <i>The association between the preference and net worth: Incentivized choice and scaled approach using the NLSY79</i>

Veterinarians Oath

Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.

Speaker

Michael Apley

A College of Veterinary Medicine faculty member since 2005, Apley is

Michael Apley holds the Edwin J. Frick professorship in veterinary medicine at Kansas State University's College of Veterinary Medicine. A K-State alumnus, Apley earned a bachelor's degree, Doctor of Veterinary Medicine and a doctorate in physiology-pharmacology.

a professor of clinical sciences and teaches beef production medicine, large animal medicine and pharmacology courses. A nationally recognized expert in antibiotic resistance, Apley works with veterinarians and producers throughout the United States on the use of drugs in food animals and also in the area of beef cattle health with an emphasis on feedlots. His research interests include infectious disease, antibiotic efficacy and resistance, drug residues, and applications of drugs in food animals. In 2015, Apley was appointed as a voting member of the Presidential Advisory Council on Combating Antibiotic Resistant Bacteria. In 2016, he and collaborators started a five-year study funded by

the Food and Drug Administration that focuses on quantifying antibiotic use in feedlots and dairies.

Before joining K-State, Apley worked at Iowa State University's College of Veterinary Medicine for nine years. He also has experience in veterinary general practice in central Kansas and at a feedlot consulting/contract research practice based in Colorado.

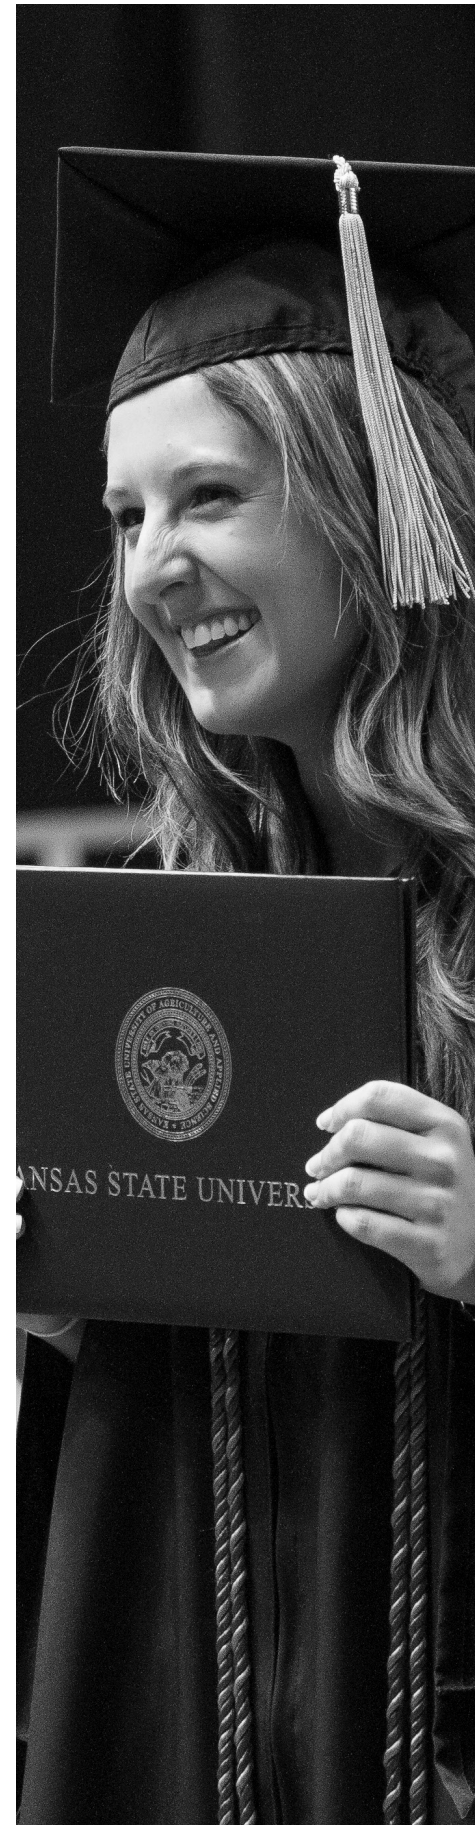

The past president of the Academy of Veterinary Consultants and the American College of Veterinary Clinical Pharmacology, Apley is currently president of the American Association of Bovine Practitioners.

Speaker

Jim Haymaker

Jim Haymaker was born in Manhattan, grew up in Minneapolis, Minnesota, and comes from a long line of K-Staters.

Haymaker worked his entire career at Cargill Inc., a global grain, food and trading company and one of the largest privately held firms in the world. He and his family spent seven years in Dusseldorf,

Germany, and Barcelona, Spain, for Cargill, where he managed local food and agriculture businesses — and his K-State language education came in handy. He went on to provide global strategy and implementation counsel to Cargill's senior team

and helped lead a highly successful worldwide transformation of the company during his last 10 years with Cargill.

Haymaker retired from Cargill in 2011 as corporate vice president of strategy and business development. He has since devoted his time to philanthropy; angel investing, which is early-stage funding of new company startups; yoga; and most importantly, his wife, family and eight grandchildren.

A 1969 graduate of Kansas State University with a Bachelor of Science in economics and a Bachelor of Arts in French, Haymaker studied at the Paris-Sorbonne University during his junior year. He went on to receive an MBA from the University of Chicago and an advanced degree in applied economics from the Catholic University of Louvain, Belgium.

all 33 sports venues of the 1996 Olympic Games in Atlanta. For the past 13 years, McAfee3 Architects has been part of a master planning and design joint venture team for the \$7 billion expansion of the Hartsfield-Jackson Atlanta International Airport, including the recently opened Maynard Holbrook Jackson International Terminal. McAfee3 jointly provided master planning and architectural design services for this major expansion program. Additionally, McAfee served as the principal architect for the joint venture.

McAfee has served on the board of directors of the alumni associations for K-State and Harvard.

work in the residential home-building industry to provide his clients with practical, goal-oriented counsel.

As the leader of the firm's construction team, his transactional and litigation practice encompasses drafting design/build contracts, preparing development agreements, negotiating claims and resolving disputes through the courts and in arbitration forums. As a member of the American Arbitration Association's national panel for construction industry cases, he frequently serves as a mediator and arbitrator in association proceedings.

Foulston Siefkin LLC partner Wyatt A. Hoch is an accomplished construction lawyer who is sought after by project owners, architects, engineers and contractors for projects across the country. Hoch combines nearly 35 years of experience in construction law with five years of undergraduate study in architecture and hands-on

Named by "Best Lawyers" as the Lawyer of the Year for Construction in 2011 and 2016 and Lawyer of the Year for Construction Litigation in 2013 and 2017 in Wichita, Hoch stays on the leading edge of industry developments and loves discovering why designs and products don't work in particular contexts. He is particularly attuned to the drawbacks associated with relying solely on technology.

Hoch has been involved in some of the most significant commercial, industrial, cultural and educational projects that have changed the landscape of Kansas over the last three decades. His reputation for excellence also attracts clients with projects all over the nation. In addition to identifying what is — and what is not — crucial in contract negotiations to achieve successful projects, Hoch is equally practical when advising clients on matters involving construction disputes. A veteran of bet-the-company, multimillion-dollar cases, he understands the unpredictability of trials and juries, and explores all the alternatives with clients to determine the best avenue to achieve their goals.

Among his cases include serving as lead counsel for a major aircraft manufacturer in a complex construction defect and schedule dispute over its Florida service center; as co-counsel to a Fortune 500 health care company in a 24-day arbitration over the construction of its Ohio headquarters; and securing a favorable verdict for the plaintiff in a 23-day federal court jury trial involving the expansion of a municipal electrical generating plant.

In the community, Hoch serves on the executive committee of the Quivira Council of the Boy Scouts of America, the board of trustees of the Northern Seminary in Chicago and is an emeritus trustee of the Wichita Botanical Gardens. A native of Kansas and a magna cum laude graduate of Kansas State University with a Bachelor of Architecture, he bleeds purple when it comes to supporting K-State athletics and is a self-proclaimed baseball junkie. Hoch and his wife, Mary Ann, live in Wichita where he enjoys working on home remodeling and gardening projects.

Oath of Education

I hereby pledge my dedication to the profession of teaching. I accept the obligations and the challenges of guiding students to knowledge, always showing them care and concern. I will encourage respect for all people, and will cultivate the disciplined, yet free minds necessary for a democratic way of life.

I promise to champion policies which promote quality in teaching and learning. I will provide everyone engaged in education the opportunity to achieve their own level of excellence. I will strive to become a knowledgeable, ethical, caring decision maker and emulate these qualities which I pledge to foster. I recognize that at times my endeavors may prove discouraging. Nonetheless, I remain faithful to the belief that my actions in the pursuit of these goals make me worthy of my profession, and make my profession worthy of a free people.

Speaker

David L. Griffin Sr.

An assistant dean, director of the Center for Student Success and Professional Services, and an associate professor in the curriculum and instruction department, David L. Griffin Sr. is retiring at the end of June, bringing to a close a distinguished and productive 26-year career in the College of Education.

Griffin earned a bachelor's degree in education with an emphasis in physical education/health and minors in biology and history from Lane College in Jackson, Tennessee. He earned a master's degree in secondary school administration and supervision from Central Missouri State University in Warrensburg, Missouri. He earned a specialist in education with an emphasis in education administration and public school superintendency from the University of Missouri, Kansas City and his doctorate in educational administration and leadership from Kansas State University.

Griffin's career encompasses 50 years in diversified educational settings. His career began as an elementary, middle and high school teacher before becoming an assistant principal, principal and director of secondary education in Missouri.

At the College of Education, he has served in many different positions. He taught both undergraduate and graduate education courses and supervised hundreds of student teachers. He served as an instructor in both the elementary and secondary education departments and as an assistant professor and associate professor before becoming an assistant dean in the College of Education in 2005. He added the responsibility of director of the Center for Student Success and Professional Services in 2011.

"He has left his mark on the College of Education and Kansas State University," said Debbie Mercer, dean of the college, about Griffin, particularly his commitment to the college's core value of promoting student success and his passion for issues related to diversity, inclusion and multicultural awareness, as well as support for all students.

Griffin is known for saying "If it is to be, it is up to me" and "With great power, comes great responsibility."

He has mentored countless undergraduate and graduate students, and he has served on numerous master and doctoral committees. However, it is his personal mentorship that impacted students across campus in powerful ways. His many honors, including the Inspire by Example and Commerce Bank awards, attest to his impact.

Active in university and community service, Griffin was a member of the President's Commission on Multicultural Affairs, the Dorothy L. Thompson Civil Rights Lecture Series, the K-State Grievance Board and many search committees for the college and the university. He served as a College of Education faculty mentor and as an advisor to the Education Council, University Honors Program, Upward Bound and Manhattan's Wonder Workshop Children's Museum.

Michael C. Holen Excellence in Graduate Teaching Award

Kay Ann Taylor

Kay Ann Taylor is an associate professor and director of graduate programs in the College of Education's curriculum and instruction department.

Taylor's degrees from Iowa State University include a Bachelor of Science in elementary education with a minor in sociology, a Master of Science in curriculum and instructional technology, and a doctorate in historical, philosophical and comparative studies in education.

Her career in education began as a fifth-grade teacher in a semi-self-contained classroom in rural Iowa. She later taught departmentalized fifth- and sixth-grade language arts and fifth-grade social sciences in a rural Iowa school. At this school, she introduced innovative teaching methods, integrating multicultural and drug education prior to their emergence in the curriculum.

Following completion of her doctorate in 2001, she was a postdoctoral professor at Drake University and Iowa State University, teaching graduate courses in African-American studies, women's studies, instructional technology, multicultural

education, history of education, philosophy of education and social foundations. As a project manager at the Research Institute for Studies in Education at Iowa State, she designed and implemented grant program evaluations for the Kellogg Foundation, National Science Foundation, American Corn Growers and others. She was a tenure-track assistant professor in the College of Education at SUNY Fredonia from 2004-2005, teaching undergraduate multicultural and graduate history and philosophy courses.

Taylor joined the education faculty at Kansas State University in fall 2005 as a tenure-track assistant professor. In her second year, she proposed, designed and taught two new graduate courses for the curriculum and instruction graduate program. Since that time, she has designed and taught numerous new graduate courses in curriculum and instruction infused with culturally sustaining pedagogy and social justice. Taylor's early innovative teaching transferred into higher education.

As a teacher, Taylor is a facilitator for learning. She strives to create a safe, inclusive environment and a community of learners through dialogue where all voices are valued and heard. Her expectations are high, the courses rigorous and demanding. Classes require reflection, critical thinking, synthesis, imagination and creativity through which students find and express their voices. One of her major goals is to empower students and share her power as a teacher. Numerous students have expressed at the end of the semester that a course Taylor taught

was a personally and professionally transformative experience for them.

Taylor is an advocate for all students. Students appreciate her ability to listen and to communicate responsively. She is a mentor, advisor, guide, facilitator, major professor and shares her joy of lifelong learning with her students. Relationships are established and maintained long after students complete their degrees. Ultimately, she seeks for her students to celebrate in their learning, have fun while doing so, and rejoices in watching them fly.

Her research interests focus on experiences of oppression and intersectionality through lenses of critical race theory, black feminist thought, postcolonial theory and more. She presents at national and international conferences and has published in *The Journal of Negro Education*, *The Journal of Educational Controversy*, *The Journal of Veterinary Medical Education*, *Journal of Educational Research*, *Journal of Latinos and Education*, *Engineering Design Graphics Journal* and more. She also has written several book chapters.

At K-State, she has been the recipient of the 2012-2013 Presidential Faculty and Staff Award for Distinguished Service to Historically Underrepresented Students, 2013 Woman of Distinction Award, 2013 All-University Award, 2009 Commerce Bank Outstanding Undergraduate Teaching Award and many other honors and recognitions.

Awards

Dan and Cheryl Yunk Excellence in Educational Administration Award

Jacque Feist

Jacque Feist, principal of Dodge City High School, is this year's recipient of the prestigious Dan and Cheryl Yunk Excellence in Educational Administration Award. The Yunks were exemplary teachers and administrators throughout their careers in Manhattan-Ogden USD 383.

Established in their honor, this award recognizes the importance of educational administrators in establishing environments that promote student learning.

Feist embodies these traits. Her career began in 1988 with the Dodge City Public Schools as a social studies teacher and girls' softball, basketball and track coach. In 1996, Feist was named a Kansas Master Teacher, and she quickly ascended into administrative roles as assistant and then associate principal. In 2000, she was named principal of Dodge City High School. In 2010, Feist was named High School Principal of the Year, a prestigious and highly competitive honor for which she was selected by her peers and fellow members of the Kansas Association for Secondary School Principals.

Feist has traveled to Washington, D.C., to advocate for the profession and schools. She has visited with

the Kansas congressional delegation about federal education laws, resources for student literacy, and greater support for the ongoing development of principals.

Feist earned degrees from Barton County Community College, Kansas State University and Fort Hays State University. She is a member of the Kansas Association of Secondary School Principals, National Association of Secondary School Principals, United School Administrators of Kansas, Association for Supervision and Curriculum Development and Phi Kappa Phi and Golden Key honor societies.

Speaker

Candace H. Duncan

Candace H. Duncan, also known as Candy, served as managing partner of KPMG LLP in metropolitan Washington, D.C., from 2009 until her retirement in November 2013. She was responsible for the strategic direction and growth of the office. She served clients on a wide range of accounting and

operational issues, public securities issuances and strategic corporate transactions.

She was admitted to the KPMG partnership in 1987 and in 1998 was named audit partner-in-charge for Virginia, where she served for 10 years. She has more than 35 years of experience as a professional with KPMG. Duncan has a strong financial and accounting background, gained through her many years of experience at KPMG. This includes her experience as a lead audit partner for major international and domestic companies.

Duncan served on KPMG's board of directors from 2009 to 2013.

Duncan currently serves as a director for Discover Financial Services, Teleflex and FTD companies.

A Kansas State University alumna, she earned a Bachelor of Science in accounting.

Awards

Ralph E. Reitz Outstanding Teaching Award

Sabuhi Sardarli

Sabuhi Sardarli, assistant professor of finance, is the recipient of 2018 Ralph E. Reitz Outstanding Teaching Award.

Sardarli currently teaches a rigorous capstone course in corporate finance for undergraduate finance majors. This course is designed to give students a perspective on financial management from the view of a corporate financial executive and an investment or commercial banker. In preparation for teaching this class, Sardarli was proactive in taking formal training on case-based teaching at Harvard University. Despite the demanding nature of the course, Sardarli maintains high evaluations by his students, earning many favorable reviews and comments.

Along with teaching, Sadarli is an active researcher and he currently serves as a faculty co-advisor for Student Finance Association. He is a member of College of Business Administration's Research Committee and the advisory council for Kansas State University's Office of Undergraduate Research & Creative Inquiry. In 2017 he was recognized with the College of Business Administration's Developing Scholar Research Award and Finance Advisory Board Faculty Fellowship.

Before joining K-State in August 2013, Sardarli earned a doctorate in finance from the University of Florida. He also earned an MBA from the University of Missouri and a Bachelor of Business Administration from Pittsburg State University.

Kansas State Bank Outstanding Advising Award

Rebecca Gould

Rebecca Gould, a career coach with the College of Business Administration, is the 2018 recipient of the Kansas State Bank Outstanding Advising Award.

With the college since 2016, Gould strives to provide students with a world-class experience by connecting with them,

hosting student-focused events and building employer relations. She builds strong relationships with students through care and by being positive. Gould has taken the lead on several student events, including the College of Business Administration Reception and Dinner, Senior Send Off and the Marketing Meet and Greet. She has worked closely with American Advertising Federation-Kansas City on sponsorships to send students to networking events in Kansas City. She also reached out to and visited seven new companies in 2017, resulting in five campus visits.

Gould received her Bachelor of Science in business administration with an emphasis in marketing from Kansas State University. She spent more than 10 years working at Panda Restaurant Group Inc. as a district manager. She is currently working on her MBA at K-State.

Developing Scholar Research Award

Hardy Johnson

Hardy Johnson, assistant professor of finance, is the 2017 recipient of the Developing Scholar Research Award. Johnson's area of research is market microstructure, particularly investigating the effects of the dramatic increase of algorithmic trading and small orders in recent years on equity markets.

He has published articles in high-quality journals, including The Journal of Banking and Finance, The Journal of Financial Research, The Financial Review, The Quarterly Journal of Finance and The Review of Quantitative Finance and Accounting. One of his publications was recently recognized with the Editors' Choice Best Paper Award by the publishing journal. He also has presented several papers at national and regional academic conferences.

Johnson currently serves as the faculty co-advisor for the Student Finance Association and the faculty mentor for the Kansas State University representatives in the CFA Institute's Research Challenge. He also is a member of the College of Business Administration's Assessment Committee.

Before joining K-State in fall 2013, Johnson earned a doctorate in finance from the University of Mississippi. He also has an MBA from the University of Alabama, Birmingham and a Bachelor of Business Administration from Auburn University.

Speaker

Richard B. Myers

Richard B. Myers was named the 14th president of Kansas State University in November 2016 by the Kansas Board of Regents. Myers' appointment came after serving as interim university president since April 2016.

A 1965 K-State graduate with a bachelor's degree in mechanical engineering,

Myers joined the Air Force through the university's Air Force ROTC program.

The native Kansan from Merriam served his country well and retired as a four-star general. From 2001-2005, he was the 15th chairman of the Joint Chiefs of Staff. As chairman, Myers was the highest-ranking uniformed officer of U.S. military forces and served as the principal military adviser to the president, secretary of defense and the National Security Council.

As a command pilot, Myers logged more than 4,100 flying hours, including 600 combat hours. His largest commands included U.S. Forces Japan and 5th Air Force at Yokota Air Base, Japan; Pacific Air Forces at Hickam Air Force Base, Hawaii; and the North American Aerospace Defense Command, U.S. Space Command and Air Force Space Command at Peterson Air Force Base in Colorado. He has received numerous awards and decorations for his service, including the Legion of Merit, French Legion of Honor, Presidential Medal of Freedom and the Lifetime Achievement Award from the Air Force Association.

Myers serves as the Kansas State University Foundation professor of military history and leadership. He received a Master of Business Administration from Auburn University in 1977. He also graduated from Air Command and Staff College at Maxwell Air Force Base in 1977, U.S. Army War College at Carlisle Barracks in 1981, and the John F. Kennedy School of Government at Harvard

University, where he completed a program for senior executives in national and international security in 1991.

Throughout Myers' active duty and world travels, he continued relationships with his friends back home. He has provided instruction, insight and inspiration to current students and the K-State community. In 2000, he presented the university's 118th Landon Lecture, speaking on the military's role in international relations. K-State named the military science building, home of the Army ROTC and Air Force ROTC programs, Gen. Richard B. Myers Hall in honor of his service and dedication.

A member of the Kansas State University Foundation's board of trustees, Myers and his wife, Mary Jo, serve as co-chairs of Kansas State University's Innovation and Inspiration Campaign to raise \$1.4 billion.

Speaker

April C. Mason

April C. Mason serves as the provost and senior vice president of Kansas State University. As the university's chief academic officer, Mason provides oversight and leadership to the academic dimensions of the university and ensures the university's academic standards.

She is the second-ranking university administrator, responsible for undergraduate and graduate academic programs offered by K-State's four campuses. The deans of the university's nine academic colleges, K-State Libraries, Graduate School and K-State Global Campus report to Mason. University offices also reporting to her include Undergraduate Studies, International Programs, the Staley School of Leadership Studies and the Center for Engagement and Community Development.

Since her arrival at K-State in January 2010, Mason has worked closely with the university president

Awards

Dawley-Scholer Award for Excellence in Student Development

Kevin Sauer

The Dawley-Scholer Award recognizes and rewards outstanding achievement in the area of student development resulting in the personal, professional and educational growth of one or more undergraduate and/or graduate students.

This year's recipient, Kevin Sauer, is a registered dietitian and associate professor in the food, nutrition, dietetics and health department.

Sauer is praised for his ability to connect with students on a personal level and help them develop their career paths, according to the awards committee. Multiple recommendations noted the importance of his interactions beginning with a simple "hi" and a sincere inquiry about how a person's day is going. His students said he has helped them through opportunities in research, conversations about life goals and engaged teaching/learning.

as a key driver of the K-State 2025 strategic plan and is committed to achieving significant progress toward K-State becoming a Top 50 public research university by 2025. In cooperation with the Deans Council and university governance councils, she has developed, reviewed and operationalized a number of policies and goals regarding instruction, research and outreach programs. In addition, Mason has instituted several programs to recognize and celebrate the work of K-State students and faculty, including a reception for newly hired faculty, a recognition event for newly tenured and promoted faculty, an all-university faculty awards reception and an academic convocation ceremony for new students.

Mason works closely with the Kansas State University Foundation and President Myers on the university's comprehensive development campaign, is responsible for the university's academic reporting to the Kansas Board of Regents, and serves on several boards, including K-State Athletics and the Association of Public and Land Grant Universities.

In addition to her work on campus, Mason is deeply committed to the future of higher education in Kansas and across the country. She currently serves

as a member of the Association of Public and Land Grant Universities Council on Academic Affairs and the Association of Chief Academic Officers, an affiliate organization of the American Council on Education.

Mason came to K-State from the position of dean of the College of Applied Human Sciences at Colorado State University. In this position, she gave leadership to the academic programs of the college. Before joining Colorado State, Mason was on the faculty and served as an administrator at Purdue University in the College of Consumer and Family Science and the foods and nutrition department.

Mason has a doctorate in nutrition and her master's degree in botany, both from Purdue University, and a bachelor's degree in biology from University of Mount Union. Mason's faculty home at K-State is as a professor in the food, nutrition, dietetics and health department. Her primary research areas have been food security and nutrient availability from plant food products. Mason has traveled extensively with her research work, most notably in Costa Rica and Indonesia.

Faculty Research Excellence Award

The Faculty Research Excellence Award recognizes superior accomplishment in research, scholarly and creative activities, and discovery through this award.

This year's recipients are Brad Behnke and Martin Seay.

Brad Behnke

Behnke is a professor of exercise physiology in the kinesiology department. His research interests include manipulation of tumor microenvironments to enhance conventional cancer therapy outcomes; cardiovascular regulation of skeletal muscle and adipose tissue perfusion with age and pathological conditions, including

diabetes, heart failure and mechanical ventilation; and effects of real and simulated microgravity on the cardiovascular system.

Martin Seay

Martin Seay is an associate professor of personal financial planning in the School of Family Studies and Human Services. His research focuses on borrowing decisions; how psychological characteristics shape financial behavior; and methodology in financial planning research.

Myers-Alford Teaching Award

Erika Lindshield

This year's recipient is Erika Lindshield.

Lindshield is an instructor of dietetics in the food, nutrition, dietetics and health department. She also serves as program coordinator for the department. Lindshield is known for her passion for her subjects and her ability to relate to students.

"Erika's willingness to meet with students where they are has made learning a deeply rewarding experience," said one former student.

The Myers-Alford Teaching Award is presented to a faculty member who has demonstrated outstanding ability not only in teaching undergraduate and/or graduate students, but also in providing valuable information to colleagues, peers and other practitioners in the field.

Hulsing Mentoring Prize

Sara Rosenkranz

"Dr. Rosenkranz's level of engagement with undergraduate students through research and the caliber of outcomes from those mentoring relationships is why she received this award," said an awards committee member. "The committee noted that Sara has developed a strong mentoring approach early in her teaching career and passed that approach to others."

The Hulsing Mentoring Prize recognizes a faculty member in the college for exceptional mentoring of undergraduate and graduate students.

This year's recipient is Sara Rosenkranz, assistant professor of nutrition in the food, nutrition, dietetics and health department.

Pledge

As a graduate of the College of Engineering, I pledge:

To give the utmost of performance;
 To participate in none but honest enterprise;
 To live and work according to the laws of humanity, and the highest standards of professional conduct;
 To place service before profit, the honor and standing of the profession before personal advantage, and the public welfare above all other consideration.
 In humility and with need for Divine Guidance, I make this pledge.

College of Engineering Pledge

Based on the Engineer's Creed, National Society of Professional Engineers

Speaker

Ivor "Ike" Evans

Ivor "Ike" Evans is the retired president and chief operating officer of Union Pacific Railroad. Union Pacific is one of America's leading transportation companies and is North America's premier railroad franchise, covering 23 states across the western two-thirds of the United States.

Evans also was the chairman and CEO of

Meritor Inc., a leading global supplier of drivelines, braking and aftermarket solutions for commercial and industrial markets. He is currently a director of Meritor and a past director of Textron, Spirit Aero Systems, Roadrunner Transportation Systems and Cooper Industries.

Evans began his career with the Chevrolet Motor Division of General Motors Corp. where he spent 21 years in positions of increasing manufacturing responsibility. From there he went on to become the senior vice president of industrial components at Emerson, a multinational company that manufactures products and provides services for a wide variety of industrial, commercial and consumer

markets. He also was an operating partner for HCI Equity Partners, a private equity firm that invests in growth-oriented industrial, transportation and services companies.

Evans graduated from Kansas State University in 1965 with a Bachelor of Science in electrical engineering and attended Harvard's management program in 1973. While at K-State, Evans was a Mike Ahearn baseball scholar athlete. He met his wife, Letty, at K-State and they have been married for 55 years. They have two sons, three granddaughters and two great-granddaughters.

University Distinguished Professors

The title of University Distinguished Professor is the highest honor Kansas State University can bestow on its faculty. This lifetime title recognizes faculty making outstanding contributions to teaching, research and service to their professions and communities. University Distinguished Professors are appointed following a universitywide competition conducted by the provost and senior vice president. Each recipient receives a commemorative medallion upon appointment.

Coffman Chair for University Distinguished Teaching Scholars

The Coffman Chair for University Distinguished Teaching Scholars was created in 1995 to underscore Kansas State University's commitment to excellence in undergraduate teaching and learning. A faculty member acknowledged as a leading teaching scholar is appointed to the chair by the university's provost and senior vice president for one academic year. All who hold the chair retain the title of University Distinguished Teaching Scholar throughout their careers. During the year in residence, the scholar's time and resources are spent advancing the interests of undergraduate teaching and learning at the university.

Alumni membership

All colleges have provided graduates with a one-year membership to the K-State Alumni Association. Graduates also will receive a gift from the alumni association in recognition of their graduation today. K-Staters are some of the most

loyal alumni in the country, and we are excited to welcome you into a new relationship with your alma mater. The K-State Alumni Association is your link for life to K-State. Learn more and stay connected by visiting K-State.com.

Program notes

The Commerce Bank and W.T. Kemper Foundation Teaching Awards are funded by the W.T. Kemper Foundation and the Commerce Bankshares Foundation.

The organ was supplied by Mid-America Piano, Manhattan.

Terry Ferguson is the bagpiper for all ceremonies at Bramlage Coliseum and at Kansas State University Polytechnic Campus.

If available, the hometowns of undergraduate students from Kansas are included in the listing of degree candidates. For students from out of state or out of country, the hometown and state or country are included.
