

KANSAS STATE

UNIVERSITY

*Kansas State University
Academy of Fellows*

Founded April 2, 2013

Kansas State University honors and respects those faculty members who are elected by their colleagues as Fellows in the respective discipline-based professional societies to which they have been named.

Therefore, Kirk Schulz, as President of Kansas State University formed the Kansas State University Academy of Fellows as a way of formalizing this honor and respect.

The goal of the Academy is to further the recognition of worthy members of the Kansas State University faculty by bringing our junior colleagues to the forefront and nominating them for awards, as others have done for us.
