How Satisfactory Academic Progress is Measured for Student Aid Eligibility

- **Cumulative GPA** - Undergraduate and Veterinary Medicine must maintain at least a **2.0** K-State cumulative GPA. Graduate students must maintain at least a **3.0** K-State cumulative GPA.
- **Deficiencies** - May occur when students **drop** a course, **withdraw** from a course, **fail** a course, and/or **fail to complete** a course. Undergraduate and Veterinary Medicine must successfully complete at least **67%** of the credit hours enrolled after the census date of each academic term.
- **Max Attempted Units** - Undergraduate and Veterinary Medicine must complete their degree requirements within **150%** of their published academic program length. Example – An undergrad student enrolled in a program that requires 120 credits for completion may receive federal financial aid for a total of 180 credit hours (120 x 150%). Graduate students must complete their degree requirements within **200%** of their published academic program length.
