k-state

TechBytes Series

Spring 2010

What is TechBytes?

TechBytes is an educational series showcasing many of the leading digital education & information technology tools available on the K-State campus.

February 4: Windows 7
*Presented by Bill Wall, Information Technology Assistance Center*
Discover the new features of Windows 7. Learn how to use Snap, Jump Lists, and Windows Search, as well as how to navigate the new Windows Taskbar.

February 11: Yolink Search
Presented by Brian Cheek, TigerLogic Corp.
Find exactly what you're looking for, only faster. Using key terms, the yolink extension scans web pages, search engine results, e-books and more to deliver just the information you need.

February 18: Time to Talk
Presented by Roger McHaney, Department of Management
This presentation focuses on new Web 2.0 tools that make time-independent online discussions more engaging and meaningful for students and faculty. Voicethread and other applications will be covered in this tutorial-style presentation.

February 25: Many Uses of WordPress *(Hale 301A)*
Presented by Marin Dowlin and Nate Dillon, College of Human Ecology
Most people use WordPress just as blogging software. At the College of Human Ecology we've turned it into many things for our needs. We'll show you how it works, it's features and caveats, and how we use it for campus websites.

March 4: Twitter Tools
Presented by Eric Dover, Information Technology Assistance Center
This session will cover possible uses of Twitter and cool tools, such as TweetDeck, to help organize and send Tweets. Please bring your own Twitter experiences as we will also be having an open discussion about Twitter and how others use it.

March 11: Zimbra Calendar
Presented by Scott Finkeldei, Office of Mediated Education
This session will cover the features and options available in the new calendar that is part of the Zimbra Collaboration Suite. The Zimbra calendar will be K-State's enterprise-wide calendar in June 2010. Come learn about this great new resource.

March 25: Google Wave
Presented by Neal Wollenberg and Larry Jackson, Department of Communications
Google's new Internet interactive collaboration tool. Catch the Wave with live group document modifications, conversations, and trackable edits. It's like having an online threaded group meeting with a bunch of handy communication tools.

Where...
Hale Library, Room 501
Thursdays, 1:30 - 2:30pm
